I awoke today and found

                          D*
the frost perched on the town
    C*   D*
It hovered in a frozen sky
C*   D*
then it gobbled summer down
G   F
When the sun turns traitor cold
     G   F   A   Asus4 A
and all the trees are shiverin' in a naked row

D*   C*
I get the urge for going

```
                    D*      D*
But I never seem to go
   C       G        D      Dsus2 D
I get the urge for going
         C      G        D       Dsus2 D
When the meadow grass is turning brown   when
C     G       D        Dsus2 D         D        Am       D   D
Summertime is falling down     And winter's closing in

   D*               C*
I had me a man in summertime
                       D*
He had summer-colored skin
C*              D*
And not another girl in town
C*                       D*
My darling's heart could win
    G                      F
But when the leaves fell on the ground
G                    F                          A          Asus4 A
And bully winds came around, pushed them face-down in the snow

D*               C*
He got the urge for going
                      D*      D*
And I had to let him go
   C       G        D      Dsus2 D
He got the urge for going
         C      G        D       Dsus2 D
When the meadow grass was turning brown
     C      G        D       Dsus2     D         Am       D    D
When summertime was falling down  And winter was closing in

    D*               C*
Now the warriors of winter
                         D*
They gave a cold triumphant shout
C*                     D*
And all that stays is dying
```

```
C*                    D*
All that lives is getting out
G                F
See the geese in chevron flight
G             F         A              Asus4 A
Flapping and racing on before the snow

     D*                  C*
They got the urge for going
                              D*       D*
And they got the wings so they can go
     C      G         D       Dsus2 D
They get the urge for going
        C      G         D              Dsus2 D
When the meadow grass is turning brown
C    G        D        Dsus2    D                Am       D     D
Summertime is falling down      And winter is closing in

     D*                  C*
I'll ply the fire with kindling now
                               D*
I'll pull the blankets up to my chin
C*                    D*
I'll lock the vagrant winter out and
C*                    D*
I'll bolt my wandering in
     G                  F
I'd like to call back summertime
G               F           A           Asus4  A
Have her stay for just another month or so
```

```
        D*                    C*
But she's got the urge for going now
                         D*      D*
So I guess she'll have to go
    C        G         D      Dsus2 D
She gets the urge for going
          C        G        D              Dsus2 D
When the meadow grass is turning brown
     C        G        D        Dsus2
And all her empire is falling down
D             Am        D
And winter is closing in

      C        G         D      Dsus2 D
And I get the urge for going
         C        G        D              Dsus2 D
When the meadow grass is turning brown
     C        D        D              Dsus2      Dsus2
And summertime is fallen down.
